1. Summary Of Significant Accounting Policies

The Livingston Parish Fire Protection District No. 7 "the District" is a body corporate created by the Livingston Parish Council (formerly Livingston Parish Police Jury), as provided by Louisiana Revised Statutes. The Fire District is governed by a board of five commissioners who are now appointed by the Livingston Parish Council.

The financial statements of the District have been prepared in accordance with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB), is the standard-setting body for governmental accounting and financial reporting. On June 30, 2001, the GASB issued a codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The more significant of these accounting policies are described below and, where appropriate, subsequent pronouncements will be referenced.

A. <u>Financial Reporting Entity</u>

This report includes all funds and account groups which are controlled by or dependent on the Fire District's Board of Commissioners. Control by or dependence on the board was determined on the basis of taxing authority, authority to issue debt, election or appointment of governing body, and other general oversight responsibility.

In conformance with Governmental Accounting Standards Board, Statement 14, the Fore District is a component unit of the Livingston Parish Council, the governing body of the parish. The accompanying financial statements present information only on the funds and account groups maintained by the Fire District and do not present information on the Council and the general government services provided by that governmental unit.

B. Fund Accounting

The accounts of the Fire District are organized on the basis of funds and account groups each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities

are controlled. The various funds of the Fire District are grouped, in the financial statements in this report, into one generic fund type and one broad fund category as follows:

General Fund – The General Fund is the general operating fund of the Fire District. It is used to account for all financial resources except those required to be accounted for in another fund.

In addition to the one generic fund type, the District maintains two account groups. The two account groups are not "funds". They are concerned only with the measurement of financial position. They are not involved with measurement of results of operations.

General Fixed Assets Account Group – The fixed assets used in the governmental fund type operations of the Fire District are accounted for in the General Fixed Assets Account Group, rather than in the governmental funds. No depreciation has been provided on general fixed assets.

General Long-Term Debt Account Group – Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group, not in the governmental fund type operations.

C. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All governmental funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Property taxes are recorded as revenues when levied even though a portion of the taxes may be collected in subsequent years. User fees are also recorded as revenues in the year billed even though a portion of the fees may be collected in subsequent years.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. An exception to this general rule is principal and interest on general long-term debt which is recognized when due. Purchase of various operating supplies are regarded as expenditures at the time purchased.

D. Budgetary Practices

The District failed to adopt a budget for the year 2002 as required by LSA-RS 39:1301-15.

E. <u>Cash and Cash Equivalents</u>

Cash includes amounts in demand deposits, interest bearing demand deposits, and money market accounts. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under State law, the District may deposit funds in demand deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

Under state law, the District may invest in United States bonds, treasury notes, or certificates. These are classified as investments if their original maturities exceed 90 days; however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments are stated at cost.

F. <u>Fixed Assets</u>

Fixed assets of governmental funds are recorded as expenditures at the time they are purchased or constructed, and the related assets are capitalized (reported) in the general fixed assets account group. General fixed assets provided by the Parish Council are not recorded within the general fixed assets group. Public domain or infrastructures are not capitalized. Interest costs incurred during construction are not capitalized. No depreciation has been provided on general fixed assets. All fixed assets are valued at historical cost, or estimated cost if historical cost is not available.

G. Accumulated Compensated Absences

The District has no policy recording employees' vacation pay and employees' sick pay benefits as the District has no full-time employees. As a result, the District has no accumulated compensated absences requiring recognition in accordance with GASB Statement 16.

H. Total Columns on Combined Statements

Total Columns on the Combined Statements is captioned (Memorandum Only) to indicate that it is presented only to facilitate financial analysis. Data in the columns does not present financial position, results of operations, or changes in financial position in conformity with accounting principles generally accepted in the United State of America. Neither is such data comparable to a consolidation.

I. Accounting Development – GASB Statement No. 34

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement No. 34, Basis Financial Statements – and Management's Discussion

and Analysis – for State and Local Governments. Certain of the significant changes in the Statement include the following:

- For the first time the financial statements will include:
 - o A management Discussion and Analysis (MD&A) section providing an analysis of the District's overall financial position and results of operations.
 - o Financial statements will be prepared using full accrual accounting for all of the District's activities, including reporting infrastructure assets (roads, bridges, etc.).
 - o A change in the fund financial statements to focus on major funds

The general provisions of GASB Statement No. 34 must be implemented by the District no later than the fiscal year ending December 31, 2004.

2. Levied Taxes

On April 3, 1993, a special election was held whereby the voters of Fire Protection District No. 7 of Livingston Parish approved the annual levy of a 10 year 10 mill ad valorem tax assessed on all property subject to taxation within the District for the purpose of "maintaining, operating and developing the District's fire protection facilities and for purchasing fire trucks and other fire fighting equipment." The tax begins with the year 1993 and ends with the year 2002.

Property taxes attach as an enforceable lien on property as of January 1, of each year. Taxes are levied in September or October and are actually billed to the taxpayers in November. Billed taxes become delinquent on January 1 of the following year.

The Fire District's taxes are collected by the Livingston Parish Tax Collector and are remitted to the Fire District monthly. The Fire District pays the Assessor's Office a fee for this service.

For the year 2002, taxes of 12.07 mills were levied on property with assessed valuations totaling \$2,337,860.

Total taxes assessed and taxes receivable at December 31, 2002, are as follows:

General Fund	General Operations 12.07 Mills		
2002 Property Tax Assessed	\$	28,218

3. Cash and Cash Equivalents

At December 31, 2002, the Fire District had cash and cash equivalents (book balances) totaling \$8,903, as follows:

Interest Bearing Demand Deposits \$ 8,580

The bank deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in the holding or custodial bank that is mutually acceptable to both parties. At December 31, 2002, the Fire District had \$67,447 in bank deposits (collected bank balances).

These deposits are secured from risk as follows:

Bank Balances	<u>\$</u>	8,580
Federal Deposit Insurance	\$	8,580
Uncollateralized (category 3): Pledged Securities		
Total	<u>\$</u>	8,580

11. Obligations Under Capital Leases -

Leases are accounted for in accordance with Section L20 of the GASB Codification and NCGA Statement No. 5 which require governments to use the criteria contained in FASB Statement No. 13, Accounting for Leases, and GASB Statement No. 13, Accounting for Operating Leases with Scheduled Rent Increases, to classify leases as capital or operating leases. The GASB Codification and NCGA Statement No. 5 also require governmental fund assets under capital leases to be recorded in the General Fixed Assets Account Group and the lease obligation to be recorded in the General Long-Term Debt Account Group.

The District entered into a renegotiated lease agreement dated November 26, 2001, to acquire or obtain the use of fire fighting equipment and two used fire trucks. The lease term is for eight years. The interest rate used in calculating the present value is 5.75%. The lease payments are to remain the same throughout the term of the lease (\$16,183.55). The lease agreement contains a fiscal funding clause which provides for the cancellation in the event the District does not appropriate funds in subsequent years for the lease payments.

The District entered into a lease agreement dated February 5, 2002 to acquire or obtain the use of a 1992 Ford Econoline Ambulance. The lease term is for five years. The interest rate used in calculating the present value is 17.024%. The lease agreement contains a fiscal funding clause
